Report Program

1. Introduction

The Chat Presentation Program was organized on at by The purpose of the program was to introduce participants to the concept of chat-based presentations, utilizing chat platforms for interactive communication, and improving their skills in presenting information concisely in a conversational format.

2. Objectives

The main objectives of the program were:

- To enhance the communication and presentation skills of participants through chat interfaces.
- To teach participants how to use chat tools effectively for presentations.
- To foster collaborative learning and discussion through a chat-based platform.
- To demonstrate the efficiency of chat formats for presentations in professional and academic settings.

3. Overview of the Program

The program was structured into different phases:

- **Introduction to Chat Presentation:** Participants were introduced to the concept of chat presentations, how they differ from traditional presentations, and the tools available for such formats.
- **Demonstration:** A live chat presentation was demonstrated, showcasing how ideas can be presented effectively in real-time conversation, including using bullet points, sharing links, and engaging the audience in interactive discussions.
- **Hands-on Session:** Participants were divided into groups and tasked with creating their own chat presentations on assigned topics. Each group had to present their topic in a structured chat format, ensuring clarity and engagement.
- **Discussion and Feedback:** After each chat presentation, the audience and facilitators provided constructive feedback, highlighting strengths and areas for improvement.

Report Program

1. Introduction

On 12th February 2019, a **Computer Literacy Program** was organized at **[Insert Venue]**, aimed at enhancing the basic computer skills of students and faculty members. The initiative was undertaken to equip participants with essential knowledge of computer operations, internet usage, and common software applications, enabling them to navigate the digital world with confidence. The program was part of the college's ongoing efforts to promote digital literacy and prepare students for future academic and professional challenges.

2. Objectives

The primary objectives of the Computer Literacy Program were:

- To introduce participants to basic computer operations.
- To provide hands-on training in commonly used software like Microsoft Word, Excel, and PowerPoint.
- To teach participants how to safely and effectively use the internet for educational and professional purposes.
- To increase awareness about cybersecurity and the importance of safe online practices.

3. Overview of the Event

The program was conducted over a day, beginning at **[Insert Start Time]**, and included both theoretical and practical sessions.

- **Introduction to Basic Computer Operations:** Participants were introduced to essential computer hardware and software components, including operating systems, file management, and basic troubleshooting.
- **Training in Microsoft Office Suite:** Participants received hands-on training in Microsoft Word, Excel, and PowerPoint, learning how to create, edit, and format documents, spreadsheets, and presentations. Special emphasis was given to formatting, basic functions, and using templates.
- **Internet Usage and Cybersecurity:** Participants were taught how to use the internet for research and communication, with guidelines on safe browsing, email usage, and securing personal data. The session also covered important cybersecurity concepts such as protecting passwords, avoiding malware, and recognizing phishing attempts.

Report Program

1. Introduction

The **"Working with HTML"** training program was successfully conducted on 4th December 2019 at The objective of this program was to provide participants with a foundational understanding of HTML (Hypertext Markup Language) and equip them with the skills necessary to create basic web pages. Given the growing importance of web development skills in various fields, this program aimed to enhance the digital literacy of students and faculty alike.

2. Objectives

The primary objectives of the program were:

- To introduce participants to the fundamentals of HTML and its role in web development.
- To enable participants to create and format basic web pages.
- To familiarize participants with essential HTML tags, elements, and attributes.
- To foster a practical understanding of web design and development concepts.

3. Overview of the Event

The program began at and was led by who provided valuable insights into HTML and web development.

- **Session Highlights:**
  - **Introduction to HTML:** Participants learned about the structure of HTML documents and the role of tags and attributes.
  - **Creating Basic Web Pages:** Hands-on exercises allowed participants to create simple web pages, incorporating text, images, and links.
  - **Understanding Page Structure:** The training covered the use of headings, paragraphs, lists, and other elements to organize content effectively.
  - **Incorporating Multimedia:** Participants practiced embedding images and hyperlinks to enhance their web pages.
  - **Form Elements:** The session included an introduction to HTML forms and how to create interactive elements for user input.
