MENTOR

Ms. VIBHA SHAHI,

SHYAMA MALL MAHAVIDYALAYA, AMAHIYA GORAKHPUR

CO-ORDINATOR		PRINCIPAL
Dr. RITA ASSISTANT PROFESSOR, DEPARTMENT OF HOME SCIENCE CRDAM P.G. COLLEGE, GORAKHPUR	SHALOO SRIVASTAVA, ASSISTANT PROFESSOR, DEPARTMENT OF HOME SCIENCE CRDAM P.G. COLLEGE, GORAKHPUR	Dr. SUMAN SINGH CRDAM P.G. COLLEGE, GORAKPUR

REPORT OF HOME-SCIENCE

The Home Science Department organized a practical and informative five-day workshop designed to enhance participants' skills in fruits and vegetable cutting, salad decoration, cooking methods, and table setting. The workshop aimed to provide comprehensive training in these essential culinary skills to improve both presentation and preparation of meals.

he five-day workshop provided participants with a well-rounded education in culinary skills, from cutting techniques and salad decoration to advanced cooking methods and table setting. By integrating practical exercises with theoretical knowledge, attendees gained valuable skills that enhance their ability to prepare and present meals effectively. The workshop promoted creativity, precision, and professionalism in culinary practices, equipping participants with the tools to elevate their cooking and dining experiences.

ONINE SECURITY SYSTEM

REPORT OF COMPUTER -DEPARTMENT

Introduction

In an era where digital interactions and online platforms are integral to academic and administrative functions, ensuring robust online security is crucial. CRD PG College has implemented various measures to safeguard its online systems, protect sensitive data, and provide a secure learning environment. This report provides an overview of the college's online security program, including its current practices, challenges, and recommendations for improvement.

Current Security Measures

1. **Network Security**
   - **Firewalls**: The college uses firewalls to monitor and control incoming and outgoing network traffic based on predetermined security rules.
   - **Intrusion Detection Systems (IDS)**: IDS are employed to detect and respond to potential security breaches and suspicious activities.
   - **Virtual Private Network (VPN)**: VPNs are provided for secure remote access to the college's internal network, ensuring encrypted communication.
2. **Data Protection**
   - **Encryption**: Data is encrypted both in transit and at rest to protect against unauthorized access. This includes student records, financial information, and research data.
   - **Backup Systems**: Regular backups are performed to ensure data can be recovered in the event of data loss or system failure.
   - **Access Controls**: Role-based access control (RBAC) is implemented to restrict access to sensitive information based on user roles and responsibilities.

- **Authentication and Authorization**

  - **Multi-Factor Authentication (MFA)**: MFA is used to add an extra layer of security to user accounts by requiring additional verification methods beyond passwords.
  - **Single Sign-On (SSO)**: SSO allows users to access multiple applications with a single set of credentials, simplifying user management while enhancing security.

- **User Awareness and Training**

  - **Security Training Programs**: Regular training sessions are conducted to educate students, faculty, and staff about online security best practices, including recognizing phishing attempts and safeguarding personal information.
