The workshop on C++ Programming” aims to equip software developers, engineers, and technology professionals with essential knowledge about how intellectual property laws intersect with the development and use of C++ programming. C++ is a versatile and powerful language widely used in software development, and understanding IPR issues in this context is crucial for protecting innovations and ensuring compliance with legal standards.

### Training Programme conducted by IPR Cell

Terracotta painting is a traditional art form that involves applying paint to terracotta (baked clay) surfaces to create intricate designs and vibrant artworks. This training program aims to preserve and revitalize this ancient craft while providing participants with the skills and knowledge needed to produce high-quality terracotta paintings. Here's an overview of what such a program typically entails.
